The Assignment: EarthKeeper Ambassadors are selected to represent the Junior Naturalist Earthkeepers Club and the Biscayne Nature Center at individual schools across South Florida. Ambassadors are expected to advance the club's environmental mission by promoting environmental practices and policies. Ambassadors must attend the Saturday morning events, publicize those events, and increase attendance with participants from their own schools and neighborhoods. They will also be invited to meetings and provide their ideas and input for future events and help organize season kick-off and closing parties.

Who Can Apply: Students in any school or Home School program in Miami-Dade, Broward, or Palm Beach counties.

Parent Note: Ambassadorship requires parent involvement and supervision, as duties involve corresponding with other children and their parents through email and text. You may be required to help organize transportation to and from the Biscayne Nature Center.

SELECTED APPLIANTS WILL BE INTERVIEWED.

Please scan application and email to: juniornaturalistearthkeepers@biscaynenaturecenter.org

Or mail to:

Junior Naturalist Earthkeepers Club -- 6767 Crandon Boulevard -- Key Biscayne, FL 33149

What do you do to help the environment, the earth or all living things? We want to hear about simple rituals (such as turning off lights,) major undertakings (such as organizing a food drive) or even one-time instances, such as rescuing your pet.

What environmental cause(s) interests you most?

What would you do as an Ambassador to increase membership and let other kids know about the events?

What is one event you would like to see the Junior Naturalist EarthKeepers organize?
